

WAI PHYOE AUNG

Web Developer

About Me

I'm a passionate and detail-oriented web developer with strong experience in building dynamic and responsive websites using React, Next.js, HTML, CSS, and Tailwind CSS. I specialize in creating full-featured eCommerce platforms that are optimized for performance and user experience. With a focus on clean code and modern UI/UX, I aim to deliver scalable and maintainable web solutions that meet client needs. I thrive in collaborative environments and continuously seek to learn and apply the latest technologies.
